

TSINGHUA UNIVERSITY

GRADUATE PROGRAMS IN ENGLISH

for International Students

(2015-2016)

INTRODUCTION

Tsinghua University is widely acknowledged as one of the most prestigious universities that hold the greatest strengths in China. Over the years, it has been ranked first in China in the numbers of academicians affiliated with the Chinese Academy of Science and the Chinese Academy of Engineering, of the top disciplines on the whole, of the Key National Laboratories, of national awards in science and technology, of research funds, and also of articles indexed in SCI, EI and ISTP.

In the academic year 2015-2016, Tsinghua University offers more than 90 master's degree programs and more than 80 Ph.D. programs to International Students, which cover a variety of academic fields such as sciences, engineering, humanities and arts, history, philosophy, economics, management, law, education and medicine. Among those, there are 13 Master programs delivered in English. The graduate programs in English are developed delicately

for the students who are skilled in English but do not have Chinese language proficiency. The unique features and high quality make the programs attractive since their establishment several years ago. In the Fall of 2014, more than 300 international students are newly enrolled into the programs. The detailed information about the programs is available at:

<http://is.tsinghua.edu.cn>

Catalog of Graduate Programs in English

Master in Advanced Computing
Master in Architecture
Master of Engineering in International Construction and Project Management (ICPM)
Master in Environmental Engineering and Management
Master in Global Business Journalism (GBJ)
Master's Program in Chinese Politics, Foreign Policy, and International Relations (CPFP)
The Master of Law Program (LL.M. Program) in Chinese Law
Master in Management Science and Engineering
Master in Mechanical Engineering
Master of Public Administration in International Development (MID)
International Master of Public Administration (IMPA)
Tsinghua-MIT Global MBA Program (Global MBA)
International Master of Public Health (IMPH)

Master in Advanced Computing

The Tsinghua University Computer Science (CS) Program is ranked among the top in China. With growing international reputation for excellence in education and research, coupled with the increasing demand for CS education from our diversified student body, we offer this master's program in Advanced Computing. In this program, we offer a broad and innovative course curriculum focusing on both cutting-edge advances in CS and Chinese

practices. This program aims to foster CS professionals who have comprehensive computer skills, excellent academic merits and great global perspectives. We welcome applicants from all over the world who have a Bachelor's degree in CS or related areas.

Master in Architecture

The School of Architecture at Tsinghua University is the first in China to offer an accredited Master degree to international students. The purpose of the program is to develop a major new platform of architectural education in response to the rapid urbanization of China.

The program offers a nationally-accredited professional Master degree, Master in Architecture (M. Arch II). With a particular focus on the architecture and design in China, the School of Architecture gives graduate students, preferably professional Bachelor degree holders, the opportunity to pursue advanced learning in professional knowledge and independent design research.

Master of Engineering in International Construction and Project Management (ICPM)

The ICPM program aims to broaden and deepen students' knowledge of contemporary issues in the leadership, strategic management, and delivery of international projects to provide value to stakeholders and society as a whole. The unique characteristic of this program is to expose students to a new way of thinking, and to create awareness of how Chinese organizations operate, manage, and delivery projects in the fast-changing world. The program is practice-oriented. Students will be taught to think creatively, to be innovative with new ideas, and to use tools and techniques for effective management of projects. Students will be taught about problem solving, leadership, and the exploitation of technology. This is a unique opportunity to embrace Chinese culture and thinking and to engage in the world of international construction.

Master in Global Business Journalism (GBJ)

Launched in 2007, GBJ program has already been recognized by students and recruiters alike as a world-class program. This program offers international students the opportunity to master the fine points of business, finance and economics in China. All courses are taught in English, the international language of business, by renowned scholars and journalists with extensive global experience. The goal is to create a cadre of smart, sophisticated reporters, editors and public relations professionals who can enhance the understanding of economic and corporate developments in China and the world.

Master's Program in Chinese Politics, Foreign Policy, and International Relations (CPFP)

The CPFP program is committed to a better understanding of Chinese politics, China's role in international relations as well as China's foreign policy through inter-disciplinary and inter-cultural dialogues. The graduates of the program will be qualified to be administrative officers and policy analysts in various levels of governments, think tanks, international organizations, multinational corporations and international media. To provide students with more extra-curricular academic activities, the department successfully initiated the Carnegie-Tsinghua Distinguished Speaker Program in 2010, in which established scholars and policy makers are invited to give lectures on various aspects of international relations and policy making.

The Master of Law Program (LL.M. Program) In Chinese Law

The Master of Law Program (LL.M. Program) In Chinese Law at Tsinghua Law School is the first formal legal educational program at the graduate level in China, which is designed and offered exclusively for foreign law students and legal professionals. It is believed that the best way of studying the legal system of a foreign country is to stay and live in the society while studying the rules

and legal operations in that society. Therefore, this LL.M. Program does not only provide all courses and materials in English, but also the unique opportunity to get insight views of Chinese legal system and the society through close contacts with Chinese students, legal professionals and common people.

Master of Public Administration in International Development(MID)

The Master of Public Administration in International Development (MID) degree program at Tsinghua University's School of Public Policy and Management is a two-year MPA program. With the purpose of educating development professionals, it is designed to deliver a strong academic and practical foundation for students to become active global citizens and specialists in Chinese

development. The MID program combines a unique academic advantage, practical orientation, global thinking and promising career prospects. Students benefit from a generous exposure to development issues from an international perspective, with an emphasis on Chinese practices and sustainable development.
